Explanatory notes

Content: full marks are given if the question has been answered fully. The content mark will be reduced according to how much of the question has not been answered satisfactorily.

Grammar & Vocabulary: full marks are given if the range and accuracy of grammar and vocabulary is fully at the B2+/C1 level. Marks will be reduced according to the quantity, type and level of language error. Consequently, mistakes in language at an advanced level will incur fewer penalties than mistakes in more basic language structures.

Organisation: full marks are given if the writing is structured coherently (use of appropriate linking expressions and other discourse features) and demonstrates a clear overall organisation, including a clear introduction and subsequent paragraphs. Marks will be reduced for incoherent, inconsistent organisation, such as, but not exclusively, lack of clear paragraphing, lack of or inappropriate discourse features.

Specialised language: full marks will be awarded if appropriate specialised language is used accurately in the writing. Therefore, the specialised language covered in the course, including as an example but not exclusively, descriptive language, speculation, evaluative language,

recommendations, opinions and collocations. Further, students will have to demonstrate an awareness of register considerations, and full marks will be given if the register used is wholly appropriate to the task. Finally, in order to be awarded full marks in this category, students must demonstrate that they can produce an article and/or a review by adhering to the conventions of this genre of writing.

Overall: full marks are given if the reader receives a wholly positive impression of the text. A positive impression is based on how easy the text is to follow, how much of the question is answered, the accuracy and range of the language used, the originality of the writing (content and observations) and how far the writing is appropriate to the required text type.

Please be advised that spelling mistakes are evaluated in the "Grammar and Vocabulary" category and an excessive number of spelling mistakes will be penalised.

As stated in the Portfolio guidelines, any evidence of plagiarism will result in students failing the entire Portfolio for the exam session for which they have enrolled.

Students must have completed the Portfolio in order to be admitted to the oral exam.

EXTRA CREDIT EXERCISES

The course will include 8 tests administered at regular intervals throughout the course. These 8 tests will be scored for 16 marks in total, 2 marks per test, and will amount to an extra 2 points (out of the total 30 for the exam) that will be added to the Portfolio's overall mark. **These tests will solely be for extra credit and will not count against students, regardless of the mark received.**

At the end of the course the marks will be totalled and added to the Portfolio mark for the current academic year. This score will be valid for the 3 exam sessions of the academic year and will be zeroed should students not pass the exam after the three sessions of the year.

If students are present for the test they will receive 1 mark; if students achieve 60% or more in the test, they receive the second mark. Therefore, partial credit can be awarded.
