<b>Scientific sector of the lecturer</b>	SECS-P/09
<b>Teaching language</b>	English
<b>Office hours</b>	<a href="https://www.unibz.it/it/timetable/?department=26&amp;degree=12829">https://www.unibz.it/it/timetable/?department=26&amp;degree=12829</a>

<b>Lecturing assistant</b>	-
<b>Teaching assistant</b>	-
<b>Office hours</b>	-
<b>List of topics covered</b>	<ul style="list-style-type: none"> <li>- What is Project Financing</li> <li>- The Rationale for Project Financing</li> <li>- Who Finances Large Projects?</li> <li>- Analyzing Project Viability</li> <li>- Designing Security Arrangements</li> <li>- Structuring the Project</li> <li>- Preparing the Project Financial Plan</li> <li>- Discounted Cash Flow Analysis</li> <li>- Financing Modeling and Project Evaluation</li> <li>- Using Real-Options to Evaluate a Project</li> <li>- Source of Project Funds</li> <li>- Managing Project Risks</li> <li>- Discussion Case Studies</li> </ul>
<b>Teaching format</b>	Frontal lectures, exercises, labs, projects, etc.

<b>Learning outcomes</b>	<p>The learning outcomes need to refer to the Dublin Descriptors: Students develop the ability to design, development, structuring and execute project finance transactions. Moreover, they acquire the ability to develop critical thinking in finding financial solutions to identify, allocate, and mitigate the main project risks.</p> <p>Knowledge and understanding: Students learn the background of project finance and explore the crucial factors and techniques used in structuring project financing. Moreover, students learn how to conduct the financial modelling and how to apply it to several types of project financing structures, Private-Public partnership included.</p> <p>Applying knowledge and understanding: Students develop the ability to critically thinking and modelling project finance transaction by learning case studies of both successful and failed project financing cases, solving financial problems and modelling financial transactions through the Excel package.</p>
--------------------------	---

	<p>Making judgments on the appropriate models and tools to analyze specific Project finance deals.</p> <p>Communication skills: Communication skills to present in a consistent and convincing way the financial structure of a project financing deal.</p> <p>Learning skills: Ability to establish links among the heterogeneous project financing deal readings in an autonomous and independent way.</p>
<b>Assessment</b>	<p>Indicate the types of assessment and check the coherence with the Dublin descriptors</p> <p>Individual written test that consists of review questions and practical exercises to assess knowledge, understanding of project financial problems and ability to develop financial decisions related to project financing deals.</p> <p>Group project work that consists of a presentation of a real case of project financial deal.</p> <p>Class Professionalism.</p>
<b>Assessment language</b>	English
<b>Evaluation criteria and criteria for awarding marks</b>	<p>There are two written parts (midterm and final exam). They consist of questions related to both real cases and project finance theory as well as exercises. To pass the exam students must obtain a positive evaluation on both parts, otherwise the test is considered failed.</p> <p>The evaluation of written tests weighs about 60%, the evaluation of project work weighs 25% and class professionalism weighs 15%.</p>
<b>Required readings</b>	<p>John Finnerty, Project Financing: Asset Based Financial Engineering, Wiley Finance, 2013 (or 2007)</p> <p>Stefano Gatti, Project Finance in Theory and Practice, Academic Press, 2013.</p>
<b>Supplementary readings</b>	Additional reading material and assigned cases will be distributed in class during the course, and posted on the web
