| Total lecturing hours        | 36 hrs                              |
| Total lab hours              | 24 hrs                              |
| Total exercise hours         |                                     |

### Attendance
- Attendance at assigned laboratory sections is required; lecture attendance is very strongly recommended.

### Prerequisites
- Registration for the course of Bachelor in Industrial and Mechanical Engineering

### Course page

### Specific educational objectives
- The course will provide an introduction to basic concepts in information and computer science (hardware and software), particularly those topics of fundamental importance to Industrial and Mechanical Engineering.

### Lecturer
- Prof. Karl von Ellenrieder Facoltà di Scienze e Tecnologie
- Building K, Room 2.08
- Tel.: +39 0471 017172
- E-mail: karl.vonellenrieder@unibz.it

### Scientific sector of the lecturer
- ING-INF/04 - Automatica

### Teaching language
- English

### Office hours
- As listed on Cockpit or by appointment

### Teaching assistant (if any)
- Dr. Lenarduzzi, Valentina – Valentina.Lenarduzzi@unibz.it

### Office hours
- As listed on Cockpit or by appointment

### List of topics covered
- The course covers the following topics:
  1. Basic programming syntax and structure in C
  2. Functions
  3. Conditional control structures
  4. Arithmetic, comparison and Boolean operators
### Learning outcomes (ILOs)

**Knowledge and understanding**

1. Basic software design procedures.
2. How to develop simple microprocessor programs.
3. How to interface a microprocessor with simple sensors and actuators.
4. How to implement simple electro-mechanical systems.

**Applying knowledge and understanding**

5. Reports for hands-on laboratory exercises that complement the lectures will require you to devise and sustain arguments.

**Making judgements**

6. On the choice of the right tools such as data types, programming approaches, or electrical components. The labs will also require you to gather and interpret relevant data.

**Communication skills**

7. Lab reports will require you to present information, ideas, problems and solutions in clear and simple language.

**Learning Skills**

8. Basic foundations for further study in more advanced courses in Industrial and Mechanical Engineering.

### Assessment

<table>

</tbody>
</table>
| **Evaluation criteria and criteria for awarding marks** | Labs: Completeness and correctness of reports; quality of writing; level of observation of physical processes  
Written Final Exam: Completeness and correctness of answers.  
Students are required to receive an overall grade of greater than 60/100 points in order to pass the course. |
Hardcopies available in library reserves, or can be downloaded here – http://www.introtoarduino.com/downloads/IntroArduinoBook.pdf |
