Specific educational objectives

The course refers to the typical educational activities and belongs to the scientific area of Business Administration.

**The modular course M1: Strategic Management:**

The course introduces students to the analysis of the strategic behaviour of firms. This matter is approached according to a process perspective, with particular emphasis on decision-making processes that shape firm strategy. From a point of view of content, the course analyses the strategy both as an outcome and as managerial process.

**The modular course M2: Organizational Behaviour and Leadership:** The course provides a general overview of topics of organizational behaviour and leadership. The course will provide the students with theoretical knowledge on contemporary theories of leadership, which are applied in case study work to real-life situations providing a praxis relation to the learned topics. After the completion of the course, the students will be able to better understand behaviour within organizations.
