

COURSE DESCRIPTION – ACADEMIC YEAR 2023/2024

Course title	Dispositivi Elettronici
Course code	42409
Scientific sector	ING-INF/01
Degree	Bachelor in Electronics and Cyberphysical Systems (L-8)
Semester	1
Year	2
Credits	9
Modular	No
Total lecturing hours	60
Total lab hours	30
Attendance	Preferrable. Non-attending students should contact the lecturer at the start of the course to agree on the modalities of the independent study
Prerequisites	Mathematical Analysis I, Mathematical Analysis II, Physics I, Physics II
Course page	Teams
Specific educational objectives	The objective of this course is an understanding of the physics and operation of semiconductor devices. Specifically, understanding of the formation and behavior of metal-semiconductor contacts, basic knowledge of nanotechnology and microfabrication, understanding of operation and design of MOSFETs, bipolar transistor and JFET, and understanding of the operation of memories, optical devices and sensors.
Lecturer	Prof. Paolo Lugli Dr. Martina Aurora Costa Angeli Dr. Soufiane Krik
Contact	paolo.lugli@unibz.it martinaaurora.aostaangeli@unibz.it soufiane.krik@unibz.it
Scientific sector of lecturer	ING/INF-01 – ELECTRONICS
Teaching language	Italian
Office hours	After consultation and agreement with lecturers
Lecturing assistant (if any)	Dr. Manuela Ciocca , Dr. Guglielmo Trentini
Contact LA	manuela.ciocca@unibz.it guglielmo.trentini@student.unibz.it
Office hours LA	After consultation and agreement with LAs
List of topics	The topics covered include: <ul style="list-style-type: none"> - physics of semiconductor materials (e.g., crystal structure, energy bands, density of states, dopants, equilibrium statistics, non-equilibrium behavior and electronic transport); - nanotechnology; - pn junctions and diodes; - MOSFETs; - bipolar junction transistors and junction field effect transistors; - optical devices; - memories;

	- sensors.
Teaching format	Frontal lectures, exercises, and laboratories.
Learning outcomes	To be defined
Assessment	Written and oral exams
Assessment language	Italian
Evaluation criteria and criteria for awarding marks	<p>The assessment criteria will be:</p> <ul style="list-style-type: none"> - the accuracy of the answers given in the written examination, with particular attention to the resolution procedure adopted and the formal correctness of the same. - the accuracy of the answers given in the oral examination, with particular attention to the terminology used.
Required readings	" <i>Semiconductor Physics and Devices</i> ", Donald A. Neamen.
Supplementary readings	"Elettronica di Millman", Jacob Millman, Arvin Grabel, Pierangelo Terreni.
