

Syllabus

Course description

Course title	Social Work in historical, inter- and transnational contexts
Course code	51080
Scientific sector	SPS/07
Degree	Bachelor in Social Work
Semester	1st
Course year	2nd
Credits	10
Modular	Yes

Total lecturing hours	60
Total lab hours	
Attendance	according to the regulation
Prerequisites	

Specific educational objectives	<p>The module imparts knowledge about the historical development of social work from a comparative perspective and the challenges it faces in transnational and international contexts, in light of societal and political developments at the local, national, European, and international levels.</p> <p>The module aims to develop a professionally reflective competence that is historically, socio-politically, and culturally aware, and to utilize the knowledge conveyed in addressing current issues and problem areas in local, national, European, as well as transnational and international contexts.</p> <ol style="list-style-type: none"> 1. Gain a comprehensive understanding of the historical development of social work, including its origins, key milestones, and influential figures in the field. 2. Analyze the impact of social work within local, national, and transnational contexts, recognizing its evolving role in response to changing social and political landscapes. 3. Develop a critical awareness of the challenges and opportunities associated with international social work and its relevance in the modern world. 4. Examine the contributions of social work pioneers and their significance in shaping the profession and its methods in historical, intercultural, and global perspectives. 5. Explore the premodern roots of social work and its evolution through different historical periods, with a focus on addressing poverty, industrialization, and social issues. 6. Understand the role of organizations like the COS (Charity Organization Society) and settlements in the development of social work practices. 7. Gain insight into the process of professionalization within the field of social work and its historical context. 8. Analyze the history of social work within a European and international social work framework, considering its unique features and global relevance. 9. Acquire a detailed overview of the historical development of
--	--

	<p>social work in specific regions, such as Germany, Italy, and South Tyrol.</p> <p>10. Develop the ability to apply historical insights to contemporary social work challenges and opportunities in diverse settings, from local to international contexts.</p>
