Course title: Management Control and Business Planning
Course code: 47534
Scientific sector: ING-IND/35
Degree: Master in Industrial and Mechanical Engineering (LM-33)
Semester: 1
Year: 2
Academic year: 2024/25
Credits: 5
Modular: No
Total lecturing hours: 24 (16 + 8)
Total lab hours:
Total exercise hours: 24 (16 + 8)
Attendance: Not compulsory
Prerequisites: none
Course page: [https://www.unibz.it/en/faculties/engineering/master-industrial-mechanical-engineering/course-offering/?academicYear=2024](https://www.unibz.it/en/faculties/engineering/master-industrial-mechanical-engineering/course-offering/?academicYear=2024)

Specific educational objectives:
The course aims to provide students with some key Management Engineering competences. The learning objectives are in particular to introduce engineering students in the fundamentals of management accounting and to teach them how to develop a business plan. Specifically, the course deals with the topics of company costs, management accounting, and business planning. The presented theoretical topics are integrated through targeted application-oriented exercises and cases (including the development of a business plan).

Lecturer: Guido Orzes and Fabrizio Bottacin
Scientific sector of the lecturer: ING-IND/35
Teaching language: English
Office hours: 15 (10 + 5)
Teaching assistant (if any): no
List of topics covered:

1. Business Planning
   - Introduction
   - Business plan structure
   - Business plan writing and presentation

2. Management Control
   - Statement of cash flows
| Teaching format | The teaching format is based on frontal lectures, exercises and business cases. In addition to a solid theoretical background, special attention will be dedicated to examples, exercises and case studies discussion. |
| Learning outcomes | Knowledge and Understanding  
- Advanced understanding of management and business administration  
- Knowledge of the various tasks, methods and approaches of management accounting  
- Knowledge of the management models for economic and financial management  
Applying knowledge and understanding  
- Analysis and solution methods  
- Ability to write a business plan  
- Ability to do advanced resolutions of management accounting tasks  
Making judgements  
- Systems Thinking - overview of the economic and financial organization  
- Ability to transfer the knowledge and methods learned to real practical applications  
Communication skills  
- Ability to structure, prepare, and present a business plan  
Ability to learn  
- Ability to autonomously extend the knowledge acquired during the study course by reading and understanding. |
| Assessment | The assessment is based on a written exam (exercises and questions) focused on the management control topic and the presentation of a business plan. |
| Assessment language | English |
| Evaluation criteria and criteria for awarding marks | The final mark is the weighted average of the different parts of the exam (the written exam is weighted twice than the business plan presentation). The assessment of the written part is based on ability to solve simple exercises about the topics of the course, clarity of answers, mastery of language (also with respect to teaching language), ability to summarize and establish relationships between topics. |
The assessment of the business plan is based on the level of detail and the correctness of the analyses as well as on the oral presentation (clarity and technical language).
