Course page	https://www.unibz.it/it/faculties/economics-
	management/bachelor-economics-politics-ethics

Specific educational	Which concepts of the economy can be identified
objectives	throughout the course of human history? How are the
	different concepts related to each other and what can we
	learn from them for our contemporary understanding of
	economics? The lecture provides an introduction to the
	history of economic thought and expands the scientific
	field to include philosophical, political, and historical
	perspectives.
