Lecturer	Prof. Nicola Dalla Via nicola.dallavia@unibz.it
Scientific sector of the lecturer	ECON-06/A (Former SECS-P/07)
Teaching language	English
Office hours	Please refer to the lecturer's timetable

Lecturing assistant	Not foreseen
Teaching assistant	Not foreseen
List of topics covered	<p>This course integrates advanced managerial accounting topics with foundational elements of business analytics and performance measurement. It focuses on preparing, evaluating, and interpreting financial and non-financial information to support managerial decision-making and control across different types of organizations (e.g., manufacturing, service, for-profit, and non-profit).</p> <p>Topics covered include advanced cost allocation techniques (such as Time-Driven Activity-Based Costing), variance analysis, fundamentals of predictive analytics, Monte Carlo simulations and uncertainty, interactive data visualizations for managerial decision-making, and the recording of basic transactions in an Enterprise Resource Planning (ERP) system.</p>
Teaching format	<p>The course combines frontal lectures, problem-solving exercises, and case study discussions. In-class explanations will be integrated with the application of concepts through practical exercises and managerial cases. Active participation is expected and encouraged throughout the course.</p>

Learning outcomes	<p>Knowledge and understanding:</p> <ul style="list-style-type: none"> • Advanced knowledge and understanding of managerial dilemma's related to the measurement and management of performance in different types of organizations • Understand how companies generate, manage, and analyse internal financial and non-financial information using ERP and BI systems <p>Applying knowledge and understanding:</p> <ul style="list-style-type: none"> • Ability to apply advanced management accounting concepts and techniques in several business settings • Ability to integrate financial information with non-financial information to effectively support managerial decision-making and drive/control corporate performance • Ability to apply data analysis tools and techniques to extract financial data, analyse financial statements and internal reports, and visualize complex accounting data <p>Making judgments:</p> <ul style="list-style-type: none"> • Ability to search for, evaluate and suggest appropriate analytical frameworks to diagnose and solve multifaceted managerial problems • Ability to analyse complex business settings and apply appropriate problem solving, computational and communication skills • Preparation and analysis of managerial reports that aid in measuring/driving corporate performance and evaluating managerial performance <p>Learning skills:</p> <ul style="list-style-type: none"> • Ability to prepare a managerial report to communicate the results of a data analysis
--------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	<ul style="list-style-type: none"> • Provide relevant information for decision-making, as well as solutions in response to specific issues related to the measurement and management of corporate and managerial performance
