Statement of interest

Scientific interests are **interdisciplinary**, developing links between the themes of the discipline of **Graphic Science and the humanities**. In particular, since 2015, when obtained the position at the Faculty of Education, the specific themes of the discipline (descriptive geometry, digital representation, graphic expression, heritage documentation) have been developed to integrate of the psycho-pedagogic sciences, developing research projects such as: VI.ST.E. Visual Storytelling for Emotion Education, VAR.HEE. Virtual and Augmented Reality for Heritage and Art

Education Experience, ViC-CH Visual Culture and Cultural Heritage.

The themes on which the publications have been developed (over 50 from 2015 to the present) are:

- History of representation
- Virtual reality and augmented reality
- Architectural Drawing
- Visual Studies and Bildwissenschaft
- Iconography and iconology
- Art Pedagogy
- Heritage education
- Children's literature and illustration

In addition to research and dissemination activities, the **organizational commitment to interdisciplinary conferences with international projection** (IMG2017, EARTH2018, IMG2019) has been fruitful: proceedings full English, indexed SCOPUS and published with MDPI and SPRINGER for over 500 authors in total, and keynotes of international level have sanctioned an excellent success of the conferences. This work has allowed the establishment of a **research network** (img-network.it) that has 8 universities and that in October 2019 **founded a full English and Open Access scientific journal** (IMG journal - interdisciplinary journal on image, imagery and imagination).
