BIOGRAPHICAL SUMMARY

personal biography

Sandy Attia was born in Cairo, Egypt, raised in Kuwait and spent her university years in the States to then become principal and co-founder of MoDusArchitects in 2000. The foundation of the practice lies in a belief in making buildings last and be loved, favoring a disciplined alliance between crafted tectonics, inventive engineering and hybrid programmatic solutions. The practice's consolidated and award-winning body of built work is complemented by a number of (written) publications and research-based projects which together affirm Sandy Attia's commitment to exploring the broad, multi-faceted range of architectural inquiry.

Attia's co-authored book *Progettare scuole tra Pedagogia e Architettura* (Designing Schools, Between Pedagogy and Architecture) was shortlisted for the 2015 National Research Award (Italy) in the field of architecture and was the recipient of the prize on scholarly work in education *Premio Infanzia – Piccolo Plauto*. Numerous initiatives and endeavors are evidence of her interdisciplinary work in educational environments: Sandy Attia has worked in tandem with an educationalist in a multi-year participatory design project commissioned by the Agnelli Foundation in the design and renovation of a public middle school in Turin. She has curated publications and exhibitions on school design and has participated as a jury member for several school design competitions and was also a contributing member of the committee tasked by the Ministry of Education (MIUR) for rewriting national school guidelines in 2022. She is frequently invited as a speaker and workshop participant at national and international conferences and seminars on the subject.

Attia has held faculty positions at academic institutions in both the United States (TCAUP University of Michigan 2002-2004, SOA Princeton Spring 2017, Fall 2018, Spring 2020) and in Italy (POLIMI 2021-2023, Univ. of Trento 2015-2017), and continues to seek out avenues in which academic and professional pursuits converge and feed architectural debate. Guided by an unfaltering belief in the capacity of architecture to bring people together, coalesce ideas, and posit synthetic responses to complex issues of contemporary culture in our built context, Sandy Attia relies on her knowledge of the discipline of architecture to define and fuel transdisciplinary practices. In 2013, she was nominated for the ArcVision prize, along with 23 other women from across the world for her contribution to the field of architecture.

MoDusArchitects professional biography

MoDusArchitects, founded in 2000 by Matteo Scagnol and Sandy Attia is an architectural practice distinguished by a heterogeneous approach to the field of architecture that combines the founding partners' two different cultural and formative backgrounds into one platform for bold architectural design. In 2022, MoDusArchitects received the top national prize in architecture for their Cusanus project and in 2021 MoDusArchitects was awarded one of four prizes for the 2021 Italian Architect of the Year, while in 2013 for the Italian Architect of the Year prize, they received the special jury prize in recognition of their "extraordinary capacity to respond to specific and variegated topics with dexterous spatial and formal solutions that are able to generate new figures in stratified territories and to produce unexpected reflections on their histories." Other awards include the first prize of the Oderzo Awards (2014) and the international Piranesi Award (2013). Three of their projects have been long and/or shortlisted for the Mies van der Rohe prize in 2020-21 and 2014. The Cogeneration Plant and Rooftop Skatepark is the early, groundbreaking project that drew attention to MoDusArchitects' capacity to transform challenging contexts into vibrant social spaces in the bringing together of two seemingly incompatible programs: infrastructure and recreation. The Kostner house and studio, another hybrid project, has been published across the globe, garnering interest for its innovative vocabulary grounded in a deeply rooted historical context, and for its capacity to strike up new conversations in the realm of artistic production. Infrastructural/requalification projects that address the larger scale such as the Ring road, the mountain lodge, and the Cosenza city and hospital masterplan underline an interest in bridging the fields of architecture and landscape.

EDUCATION	
2000	Harvard University Graduate School of Design, Department of Architecture. Cambridge, MA Master in Architecture (MArch-I Advanced Placement Program)
1995	University of Virginia School of Architecture, Charlottesville, VA Bachelor of Science in Architecture with High honors
1994	University of Copenhagen Denmark International Studies, Copenhagen, Denmark Architectural Exchange Program, Concentrated Studies in Housing and Urban Design.
ACADEMIC	
Academic appointments	<p>2022 University of Virginia, School of Architecture Visiting Professor, Spring 2022 Course: Graduate architecture options studio "DOUBLEVISION. Greenhouse and Seed Bank"</p> <p>2022-2024 Polytechnic University of Milan (POLIMI), Piacenza campus Visiting Professor, Fall 2021, 2022, 2023 Course: Graduate architecture options studio "Greenhouse: An Architecture of Wonder" Course: Graduate architecture options studio "Another Brick in the Wall: Freedom and Education"</p> <p>2020 Princeton University, School of Architecture Visiting Professor, Spring 2020 Course: Graduate architecture options studio "CERN—Data Center and Junk Archive"</p> <p>2018 Princeton University, School of Architecture Visiting Professor, Fall 2018 Course: Graduate options studio "Camerino: post earthquake"</p> <p>2017 Princeton University, School of Architecture Visiting Professor, Spring 2017 Course: Graduate options studio "Ötzi the Iceman. An Architecture for Humankind"</p> <p>2017, 2016 University of Trento, DICAM – Dept. of Civil, Environmental and Mechanical Engineering <i>Design Critic</i>, 5 year prof. degree program in Construction Engineering and Architecture Courses: First year design studio, second year students</p> <p>2005 University of Virginia, Venice Study Abroad Program <i>Design studio visiting critic</i>, Dept. of Architecture, Fall 2005 Course: Graduate level options studio</p> <p>2002-2004 University of Michigan, Taubman College of Architecture and Urban Planning (TCAUP) <i>Lecturer in Architecture</i>, Department of Architecture, 2002-2004 Courses: Undergraduate Architectural Design I, Undergraduate Architectural Design II, Design Fundamentals II (undergraduate lecture course), Thesis preparation seminar, Graduate level options design studio, Graduate Thesis design studio</p> <p>2003 University of Michigan, Taubman College of Architecture and Urban Planning <i>Director of Florence studio</i>, Florence Study Abroad Program, Fall 2003 Courses: graduate Architectural Design options studio, Graduate Thesis Prep Seminar, 'Experiencing the City' undergraduate lecture course (cross-listed between Univ. of Wisconsin, Duke Univ. and Univ. of Michigan), Independent Study Advisor</p> <p>2003 University of Illinois at Urbana-Champaign (UIUC), Department of Architecture Rome Study Abroad Program <i>Visiting Design Critic</i>, Summer 2003 Courses: undergraduate Architectural Design studio (co-taught with Prof. Kevin Hinders), Architectural Analysis seminar (co-taught with Prof. Kevin Hinders)</p>

Teaching Awards	2003	Alumni Society Board of Governors Annual Student Awards Undergraduate Studio Commendation undergraduate Architectural Design I (UG1) studio awarded recognition by the Alumni Board, University of Michigan, Taubman College of Architecture and Urban Planning
Student Work Citations	2004	Golnar Adili: Thesis Award Graduate Thesis Studio, TCAUP, University of Michigan
		Jennifer Maigret: Thesis Award Graduate Thesis Studio, TCAUP, University of Michigan
	2003	Wesley DePret: Honorable Mention Wallenberg competition, Final undergraduate studio, TCAUP, University. of Michigan
		Emily Brown: Studio Project Award (first year undergraduate studio) Alumni Society Board of Governors, TCAUP, University of Michigan
Awards and Recognition	2019	“L’altra metà dell’architettura” (<i>The other half of architecture</i>) as part of the podcast series titled “Donne come noi.” (<i>Women like us</i>): a dedicated podcast as one of ten women that recount their lives and their profession in Italy. Podcast launched by the magazine <i>DonnaModerna</i> in collaboration with <i>Storytel</i> , 2019
	2017	Premio Infanzia – Piccolo Plauto Prize awarded to the book <u>Progettare scuole tra Pedagogia e Architettura</u> for the research area “The Design of Educational Spaces,” (<i>Progettazione e allestimento di spazi educativi dedicati all’infanzia</i>)
	2015	Premio Nazionale di Divulgazione Scientifica , Edizione 2015. (National Research Prize promoted by the National Book Association of Italy) Nomination, shortlisted
	2013	ArcVision Prize – Women and Architecture Nomination, shortlisted
	2002- 2003	Muschenheim Fellowship University of Michigan, Taubman College of Architecture and Urban Planning <i>Teaching and Research fellowship</i>
	2000	Julia Amory Appleton Traveling Fellowship in Architecture Graduate School of Design, Harvard University Topic: <i>One Material: Between a Primitive and Decadent Architectural Expression</i>
	1997	Recipient of scholarship from the Oregon State Scholarship Commission
	1994	Intermediate Honors University of Virginia, Charlottesville, VA Award for academic excellence upon completion of the first half of the undergraduate program.
Visiting Critic	2025	School of Architecture, University of Oregon Vicenza program
	2021	School of Architecture, Florence University – joint thesis advisor with Roberto Bosi for the thesis candidate Stefania Randoli
	2020	TCAUP, University of Michigan, graduate final reviews, Ann Arbor, MI Univ. of Oregon, Oregon State University, undergraduate final reviews, Oregon
	2018	Harvard University, Graduate School of Design, graduate final reviews, Cambridge MA Cranbrook University, design reviews, Cranbrook, MI
	2017	University of Virginia, undergraduate final reviews, Venice Study Abroad Program, Italy
	2010	University of Michigan, graduate final reviews, Florence Study Abroad Program, Italy
	2005,	Syracuse University, graduate final reviews, Florence Study Abroad Program, Italy
	2006	
	2005	Univ. of Innsbruck, undergraduate final reviews, Dept. of Arch., Innsbruck, Austria

Workshops, Seminars	2016	Innovative Learning Spaces ILS Dept. of Architecture, Design and Urban Studies, University of Sassari, Sardegna, Italy workshop held in the Alghero Scientific Research Center, Alghero, Sardegna tutor (with Matteo Scagnol) <i>In the role as joint design tutor together with Matteo Scagnol, the design workshop analyzed an existing middle school located in the heart of Sassari to project new scenarios that combine innovative architectural and pedagogical practices.</i>
Participatory Design Workshops / Consultancy	2011	“Workin’ on n.3” International Design Workshop workshop and seminar organized by the Caserto BLOWUP 010 Association <i>In the role as design tutor Sandy Attia led a group of 6 students on a design charrette grappling with the decaying and abandoned shopping malls located inland from Naples in vicinity to the city of Caserta.</i>
	2019	Science Gateway, CERN, Renzo Piano Building Workshop Innovative learning spaces consultant <i>In support of the educational laboratories designed by RPBW for the Science Gateway project at CERN, Geneva, Sandy Attia contributed to the discussion around the educational mandate of the project with a special focus on the educational pavilion for the S’Cool LAB program for students.</i>
	2018	Camerino Workshop , post-earthquake community building OST (open space technology) participatory design method mediated by Ascolto Attivo <i>As part of the design process for the 2018 Biennale project dedicated to Camerino, Sandy Attia participated in the workshop open to the stakeholders and community of Camerino to discuss the post-seismic future of the town.</i>
	2015-2018	“Torino fa Scuola” sponsored by the Agnelli Foundation and the Compagnia San Paolo, Turin, Italy <i>The two foundations come together to donate and spearhead a pilot project for the requalification and addition to an existing middle-school located in the Lingotto (ex-Fiat) neighborhood of Turin. In her role as architect, Sandy Attia together with an educationalist accompany the school in a series of workshops in preparation for the forthcoming architectural competition and the phases that follow. New methods for participatory planning are implemented and monitored.</i>
	2012	“Love your school” workshop held at the Preschool and Kindergarten Building in Bolzano, BZ <i>This workshop was an experiment in bridging the gap between the architect and the end-users once the school was handed over to the city of Bolzano and the various institutions managing the pre-school and kindergarten. Post occupancy monitoring of school projects can benefit both architects and those inhabiting the schools to make better informed decisions in the future. This workshop was also intended to promote an open dialogue with the school to fully understand the design concepts driving the building and to encourage the educators to inhabit the school to its full potential.</i>
	2012	A new Cultural Youth Center for Bressanone workshop held at the former cinema house, and ex-Gill building, Bressanone <i>As an architectural consultant for the on-going discussion revolving around a new Youth Cultural Center for Bressanone, Sandy Attia participated in a series of workshops comprised of youth groups, city officials, and youth program directors. Her role as architect was to interpret and distillate the culture, needs, and desires of the younger generation into a feasibility study that took into consideration the refurbishment of the abandoned 1930s era “Astra” building in the city center of Bressanone.</i>

Supported Research	2010	Pedagogy and Architecture: the design process of educational spaces In partnership with assoc. prof. Beate Weyland. A research project funded by the Faculty of Education (UNIBZ) under the patronage of the Department of Public Works (Autonomous Province of Bolzano), the South Tyrol Architectural Association and Foundation, and the various local governing bodies of the South Tyrol scholastic curriculum <i>The research looks at the intersecting dialogue between pedagogy and architecture in the design process of school renovation projects and new educational facilities with a focus on primary and elementary schools. Based on 10 case studies of schools designed and constructed in the past 8-10 years in the South Tyrol region, the project examines current trends in innovative learning practices in the context of contemporary architectural practice. In studying the trajectory of the design process together with numerous visits of the school, the roles of the various stakeholders are analyzed to better understand how the architectural planning and design of schools inflect pedagogical approaches and vice versa.</i>
	2012-	HEADS UP HIGHWAY! Cultivating energy 2050
	2013	The invitation to participate in the MAXXI 2013 exhibition titled “Energy.Architettura e reti del petrolio e del post-petrolio” (curated by Pippo Ciorra) prompted a parallel research project that developed a conceptual framework for the intersection of energy, infrastructure and architecture. <i>“Heads up Highway!” is an exhibition that projects itself into a near future where electricity is the reigning source of energy. While fossil fuels are processed, measured and transported in terms of their volume, electrical energy demands surface area. While these fossil fuels are invisible within the folds of the earth, the systems needed to produce and transport electrical energy are highly visible, pervading large areas of the built and un-built environment. The installation therefore grapples with the physical ramifications of this paradigmatic shift, and takes on the visibility of electrical energy. With the “Heads up Highway” installation, 6.650km of highway are activated and transformed into a continuous 160 million square meter surface superimposed on the existing highway to become an electrical park reaching out across Italy</i>
	2003	Brick in Contemporary Architectural Practice <i>Lecturers' Development Grant</i> Center for Research on Learning and Teaching (CRLT), University of Michigan <i>While the euphoria of new materials and technological advances in contemporary culture has enthused a barrage of work that twists metal, curves glass and makes what was once impossible now virtually seamless, brick meanwhile has remained quite simply brick. Few exceptions exist, and it is these exceptions that the research takes on as the content of the research. Through a series of interviews, prominent voices in today's architectural field are asked to speak about their architectural intentions, giving context to their practical applications in building with brick.</i>
	2001	One Material: Between a Primitive and Decadent Architectural Expression <i>Julia Amory Appleton Traveling Fellowship in Architecture</i> Harvard University, Graduate School of Design, Department of Architecture. 2000-2001

Jury Member	2023-present	Wood Architecture Prize Member of the 7-person jury for the national architecture prize for wood architecture, promoted by Bolzano Fiera. (President 1 st edition).
	2025	Premio Maestri Comacini Member of the 7-person jury for the regional architecture prize organized by the Como Chapter of Architects
	2024	Verona Architecture Prize Member of the 5-person jury for the regional architecture prize organized by the Verona Chapter of Architects
	2024	The Plan Award Member of the 3-person jury, Future category
	2023	Housing for the Future Member of the 5-person jury for the architecture competition "Rossweis" sponsored by Pohl Immoblien, BZ
	2022	International Architecture Competition for the Masterplan and new school in Scandicci, Florence, jury president International Architecture Competition for the new school in Bottanuco, BG Jury president
	2022	Premio Federico Maggia , jury member for the prize dedicated to young architects in a design-build project dedicated to learning spaces located on various sites across the Biella area in the Piedmont region
	2021	best architects , Dusseldorf, Germany Jury Member for the annual best architects architectural prize
	2018	" Schools for the New Millennium ," Architecture Competition for the Renovation and Addition to a School Complex in Sanmugheo, Sardegna, Italy.
	2018	International Architecture Competition for a New School Campus Mondello, Palermo, Italy
	2018	Design for Inclusion: Rethinking Learning Spaces Competition , Ragusa, Sicily, Italy
	2018	Architecture Student Travel Award Competition , Ljubljana, Slovenia
	2017	International Competition for the Requalification and Addition to a Middle School, Turin, Italy. (<i>Torino fa Scuola</i> , FGA)
Institutional Appointments	2024-present	Comitato provinciale per la cultura architettonica e il paesaggio Member of the 3-person project evaluation committee for public and private proposals with the mission of promoting architectural excellence in the Province's territories. appointed by the Autonomous Province of Trento (3-year mandate)
	2022	Steering committee member for the drafting of the National School Guidelines "Gruppo di Lavoro per la definizione di indicazioni e linee guida orientative per gli ambienti di apprendimento e per la didattica" "nell'ambito della linea di intervento 1.1. "Costruzione di nuove scuole mediante sostituzione edilizia" della Missione 2 – Componente 3 – del PNRR" Appointed by the Ministry of Education (MIUR), Rome
Affiliations	2012-2016	Spazio e Apprendimento – Lernen & Raum Contributing member of the intra-institutional network "Space and Learning Network" headquartered in the South Tyrol region.
	2005-2018	Turris Babel (South Tyrol Journal of Architecture), editorial board

PROFESSIONAL

	2000 –	MoDusArchitects co-founding partner with Matteo Scagnol www.modusarchitects.com
Selected Awards	2025	Platform Best Houses - Casa Visibilio <i>selection</i>
	2024	Klaus Dyckerhoff Preis für Architektur - Cusanus Academy, Renovation and Addition <i>honorable mention</i>
		Sport Architecture Prize “I luoghi per lo sport” - Sports Park Milland Winner, “Sports Facilities” (Impianti sportive) category (IN/Arch Piemonte)
	2023	IN/Architettura National Architecture Prize - Bressanone-Varna Ring Road <i>special mention</i> , New Intervention category
		IN/Architettura 2023, Trentino Alto Adige - Fieldhouse Winner and “Federbeton” special prize, New Intervention category
	2022	Premio Italiano di Architettura (Italian Architecture Prize) <i>best building completed in the past 3 years</i> - Cusanus Academy, Renovation and Addition MAXXI Museum (Rome) in partnership with Triennale Milano (joint patronage)
		Premio Architettura Alto Adige - Cusanus Academy, Renovation and Addition - New Museum Entrance, Novacella Abbey <i>finalist</i>
		Premio Architettura, città di Oderzo PAO XVIII (Oderzo Architecture Prize) -New Museum Entrance, Novacella Abbey <i>selected</i> (one of eight finalists of the tri-Veneto region prize)
		International Land Award -Bressanone-Varna Ring Road <i>honorable mention</i> , Infrastructures category
		ArchDaily, 2022 Building of the Year nominations -Cusanus Academy, Renovation and Addition -Novacella Abbey Museum Addition
	2021	Best Italian Architect (Premio Architetto Italiano 2021) <i>Recipient of one of the four national prizes for the Best Italian Architects of the Year</i> -Cusanus Academy, <i>Onore di menzione, opera di restauro o recupero</i> promoted by the National Board of Italian Architects (CNAPPC)
		Mies van der Rohe Prize for European Architecture -Cusanus Academy, Renovation and Addition, Bressanone BZ, Nomination, 2 nd phase -“TreeHugger” Tourist Information Center” Bressanone BZ, Nomination, 2 nd phase
		BIGMAT International Architecture Award -“TreeHugger” Tourist Information Center” Bressanone BZ, <i>second phase selection</i>
	2020	International Design Media Award (IDMA), 18th edition Modern Decoration Magazine (Shenzhen, China) -“Tree Hugger” Tourist Information Center <i>winner</i> , Annual Office Space Award

Premio Inarchitettura 2020, Autonomous Province of Trento – Bolzano
-“Tree Hugger” Tourist Information Center
winner, Urban Regeneration category (tri-Veneto region)

Premio Italiano di Architettura 2020
-“Tree Hugger” Tourist Information Center
finalist, Best building completed in the past 3 years category

BigSee Architecture Award
-“Tree Hugger” Tourist Information Center
winner

2019 **Architizer A+Awards**
-“Tree Hugger” Tourist Information Center
finalist, Commercial-Office-Low Rise category
-School Complex and Multipurpose Hall, S. Andrea
special mention, Institutional-Kindergartens category

Iconic Awards, German Design Council
-“A House on the Hill,” Fischer House, Cleoran, BZ
winner, Architecture and Interior Design category
-Edelrauthütte Mountain Lodge
selected, Architecture and Interior Design category
- Tourist Information Center
selected, Architecture and Interior Design category

Best Architects 20 Awards
“A House on the Hill,” Fischer House, Cleoran, BZ
award, Residential, Single-Family category

Dezeen Awards 2019
“Tree Hugger,” longlisted, Business Building category (Tourist Information Center)

The Plan Awards
School Complex and Multipurpose Hall, S. Andrea
winner of the Educational Spaces category
overall finalist of the The Plan Awards

Houses of the Year (Häuser des Jahres 2019)
honorable mention, Fischer House (A House on the Hill)

2018 **Best Architects 19 Awards**
winner of the Public Buildings category, Bressanone Tourist Information Office

2017 **Archmarathon Awards Milano, 2017**
shortlisted, nominated project presented before a juried panel, S. Andrea Elementary School

Architettura in Legno, Lignius / inarch (Wood Architecture National Competition)
winner of Commercial and office category, Damian-Holz&Ko Headquarters

2015 **Medaglia d’Oro all’Architettura Italiana**, Triennale Milano
honorable mention, subsidiary heating plant

Archmarathon Awards Beirut, 2015
winner of infrastructure category, Bressanone-Varna Ringroad

Mies van der Rohe Prize for European Architecture
nomination, Psychiatric Rehabilitation Center, Bolzano BZ

2014 **Archmarathon Awards Milano, 2014**
shortlisted, nominated project presented before a juried panel, Kostner house and studio

Beautiful Schools (*Agibile e Belle*)

Pre-school, Kindergarten and Family Center awarded one of 10 prizes for the best design in educational buildings in the past decade in Italy.

Venice, Nov. 2014

Tenth European Prize of architecture, Philippe Rotthier
nomination, Ringroad project

Premio Architettura città di Oderzo, 16th edition
first prize winners

German Design Award

Kostner House and Studio, Castelrotto BZ
winner, Architecture and Interior Design category

Best Architects 2014

- Subsidiary Heating Plant. *Gold Winner*, infrastructure and industrial building category
- Artist's House and Atelier. *Honorable mention*, single-family house category
- Office addition: Damiani Holz&Ko Headquarters
honorable mention, office and administration building category
- Pre-School, Kindergarten and Family Center
honorable mention, public works category

2013 Best Italian Architect (Premio Architetto Italiano 2013)

Special Jury Prize awarded to MoDusArchitects
promoted by the MAXXI museum and the National Board of Italian Architects CNAPPC

International 2013 Piranesi Award

first prize winner, Ringroad project

South Tyrol Architecture Prize

winner, open spaces category, Ringroad project

Houses of the Year (Häuser des Jahres 2013)

honorable mention, Kostner House and Studio

2012 Iconic Awards

- Office addition: Damiani Holz&Ko Headquarters
winner, corporate category
- Artist's House and Atelier
winner, domestic category

2011 WAF World Architecture Festival, Singapore

four shortlisted projects in four different categories

BigMat International Architecture Award

shortlisted, Ringroad project

2010 Casa Clima Award

honorable mention, sustainable building. Office addition Damiani Holz&Ko Headquarters

2009

Medaglia d'Oro all'Architettura Italiana, Triennale Milano

honorable mention, infrastructure category, Ringroad project

2007

Premio IN /ARCH – ANCE IV edizione

honorable mention, House Terzer

2006

Alpine Interior Award

honorable mention, single family house category, House Terzer

2006

Premio Architettura città di Oderzo, 12th edition

honorable mention, House Terzer

South Tyrol Architecture Prize, 5th edition
first prize, ex-aequo, Central Heating plant and Rooftop skate park project

International Piranesi Award, 2006
honorable mention, Children's Center project

- 2005 **Barbara Cappochin Biennial International Architecture Prize**
honorable mention, Central Heating plant and Rooftop skate park project
- 2005 **Premio Architettura città di Oderzo, 9th edition**
honorable mention, Children's Center project

Exhibitions

solo exhibitions / installations

- 2018 **"A Shed of Something, A Palace of Nothing"**
Rolled Steel Installation, Embodied Computational Lab, Princeton University Grounds curated by SOA Princeton Exhibitions, March 2018
- 2015 **"Spigoli, sbalzi e curve. L'equilibrio sfuggente nell'architettura"**
Edges, Curves, and Cantilevers: an elusive equilibrium in architecture
Galleria Prisma, MoDusArchitects solo exhibition, Bolzano, December 2015

curated exhibitions and installation/exhibit design

- 2017 **"Mens Sana Corpore Sano"**
Fortezza Cultural and Exhibition Space, Franzenfest, BZ
As one of the 10 sections constituting the exhibition/installation "Designing Schools Together" (curated by Kuno Prey and Beate Weyland), "Mens Sana Corpore Sano" uses the metaphor of the body to present innovative school buildings from around the world.

- 2015 **Building the Expo**
Chicago Architecture Biennial (03/10/2015 – 03/01/2016)
exhibit design and coordination MoDusArchitects, curated by Luisa Collina, Milan Politecnico

- Building the Expo**
MadeEXPO Annual Tradeshow, Fiera Rho-Pero, Padiglione 2 (18-21 March 2015)
exhibit design MoDusArchitects, curated by Luisa Collina

- 2014 **Premio Architettura Città di Oderzo, XIV edition**
Palazzo Foscolo, via Garibaldi 65, Oderzo (04/10 – 09/11/2014)
exhibition design and coordination MoDusArchitects

- Expo 2015: un laboratorio ambientale, Padiglione Italia, Biennale di Venezia**
Expo segment of the Italian Pavilion, Venice Biennale
exhibit design and coordination MoDusArchitects, curated by Luisa Collina
